## **Tennessee General Assembly – Senate Introduction – Individual Counties**

Beginning with Anderson County and ending with Wilson County, Tennessee, I have listed the state senator who represented that county. Despite extensive research the following counties General Assembly Senators could not be found (Benton – 23rd; Carter – 10th; Cumberland – 37th; Dickson – 17th; Jackson – 10th; Lake – 40th; Obion – 40th; Overton – 10th; Union – 37th; and Van Buren – 29th).

Each county listing has the state senator who represented that county, General Assembly, years of service and beginning with the Forty-Fifth General Assembly (1887), the political party if known is listed. If a State Senator died in office or resigned I have tried to note this date and the date his or her replacement was elected or appointed to office.

The web link to the [Acts of Tennessee](#) as to formation of a county is given along with the common abbreviation used for that county, except for Tennessee County which does not have an abbreviation.
